This project consists of modern apartments with three bedrooms, two bathrooms and a private pool. You can choose between homes on the ground floor with a garden or on the upper floors with a terrace and a private roof terrace with an outdoor kitchen.

All apartments consist of three bedrooms, two bathrooms and have an open living room combined with the kitchen. The ground floor apartments on the ground floor have large terraces with a private pool and private parking space and storage room on the plot and the penthouses on the upper floor have a private balcony and roof terrace with a private pool, toilet, as well as parking space and storage room in the complex. A very nice addition to the penthouses is the beautiful outdoor kitchen on the roof terrace, an electric barbecue, a shower with hot water and a specially designed metal pergola, which means there is much more outdoor space available, so you can enjoy the sun and the climate all year round.

These homes include; underfloor heating in the bathrooms, kitchen appliances, swimming pool, outdoor shower, fitted wardrobes, air conditioning, lighting inside & outside.
